

Truck Fleet Operator Survey Questionnaire

Pretext: "My name _____. I am a consultant with Cambridge Systematics. We are working with the City of Orlando on the freight component of the Downtown Orlando Transportation Plan. I have a five-minute survey on downtown truck parking that the City of Orlando is conducting to improve the effectiveness of the location of the downtown freight zones. Would you like to participate?"

I. How often does the average vehicle in your fleet park downtown?

II. What are the three freight zone locations that you use the most often? Either refer to the freight zone map or street intersections/addresses.

1. _____

2. _____

3. _____

III. Which locations are not currently a freight zone, but should be based on your truck loading/unloading patterns? _____

IV. Is the 30-minute time limit adequate for freight pickup and delivery?
